SUBJECT

25X1

HSCA Request, OLC 78-2137

- 1. Subject letter requests "access to any investigative reports done by either CIA or NPIC concerning these photographs". The photographs referred to are those in Howard Hunt's Office of Security file Our conversation with OS, identified the photographs as those of three individuals detained by Dallas police on the day President Kennedy was assassinated.
- 2. We do not know of any "investigative reports" concerning the photographs mentioned above. We understand that the Committee staffers have had access to and read a set of briefing notes prepared by NPIC on the above mentioned photographs. Since the notes were used for briefing rather than a formal written report they are not marked as to classification. The notes should be classified CONFIDENTIAL since they reveal methods and intelligence capabilities. We are taking action now to so classify the notes.

3.	This	completes	DDS&T	action	on s	subject	request.
